FOREIGN ELECTRONIC COMMUNICATION TEXTBOOK SERIES: COMMUNICATION SYSTEMS MICROWAVE FILTERS BASED ON DESIGN(CHINESE EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date :2012-10-01 Pages: 532 Publisher: Publishing House of Electronics Industry title: foreign electronic communication textbook series: communication systems microwave filter based on the design and application of original price: 79.00 yuan Author: Richard J. Cameron (Richard J.Cameron) Publisher: Electronic Industry Press Publication Date: October 1. 2012 ISBN: 9787121182006 words: Page: 532 Edition: 1st Edition Binding: Paperback: Weight: 780 g Cameron. library Desai. microwave filters Manso communication system - based on the design and application of the Editor's Choice followed by the basic principles and practical application of modern microwave filters. introduced a large number of previously no systematic relevant knowledge. The book is a good reference for experienced filter designers. For undergraduates and graduate students. this book is an excellent textbook microwave filters. The same time. for the filter researchers hope to improve the level of technological development of microwave filters. the book is a good guide. In addition. through the book. the communication system designers can well understand that the current level of development and the limitations of the microwave filters and multi network. This book can achieve a good balance between theory and practice. Summary Cameron. library Desai. microwave filters Manso communication system - based on the design and application of the authority in the field of microwave filter design book. the first two chapters introduce the basic concepts and theories of the communication system ; Chapter 3 to Chapter 7 describes the various types of filter transfer functions and its circuit network synthesis; detailed description of the basic filter coupling matrix theory and the topology of an integrated approach and application of Chapter 8 to Chapter 10; first 11 and Chapter 16 describes the...
