Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

STRUCTURE AND TRANSFORMATION: THEORY AND SOCIETY IN INDIA

Oxford University Press, New Delhi, India, 2001. Paperback. Book Condition: New. First Edition. Structure and Transformation attempts to understand some of the key theoretical and empirical debates in the fields of urbanization, industrialization and stratification in India. The essays in this volume engage with the problem of typologies-tribal, peasant and industrial-in order to rethink the issues of modernity and tradition. The authors problematize a vast array of literature on tribal, peasant and industrial sociology, grappling with conceptual problems related to the uncritical application of theories germinated in the West to Indian contexts. The primary assumption of all the essays is that the conventional binary opposition between primitive and modern, and the schema of the First, Second and Third worlds is redundant to our times. With this approach, the essays explore the tribal question, gender and the workplace, culture, change and colonial India, as well as issues in urban sociology. The contributors to this volume do not propose a single solution to any of the problems but attempt to engage with the discursive and volatile aspects of the discipline of sociology, enlivening and reinvigorating old debates. It is hoped that through this exercise the student will come to read sociology in a new and refreshing way. Printed Pages: 235.
