

CNC machining and special processing technology

By YANG HONG LIANG ZHU

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: HIT Pub. Date :2010-05-21. The main content of the book is divided into numerical processing technology and special processing techniques in two parts. CNC machining parts CNC machining focuses on the basic principles. the basic characteristics of CNC machine tools. CNC program writing. etc. focusing on the CNC lathe. CNC milling. CNC EDM wire cutting machine (that part of the program in part explain the special processing). such as CNC punch press programming and operating CNC machine tools were introduced; special section focuses on EDM machining. EDM wire cutting. ultrasonic machining. laser machining. electrochemical machining. electron beam and ion beam processing. rapid prototyping technology and other basic principles of special processing methods. and basically had no preparation. the main features and applications. This book is a training project engineering colleges with guidance materials are also available in mechanical manufacturing engineering staff to learn information. Contents: Chapter 1 Introduction 1.1 CNC machine CNC machine tool production and development of CNC machine tools 1.2 1.3 The basic principle of the classification and characteristics of CNC machine tools thinking...
