

Cassandra's Daughter: A History of Psychoanalysis

Filesize: 5.94 MB

Reviews

Absolutely essential study pdf. It is written in basic words and phrases rather than hard to understand. I am just happy to tell you that this is basically the finest pdf I actually have studied during my personal lifestyle and can be the very best publication for actually.

Penguin Books, 2001. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Psychoanalysis is arguably the single most important intellectual development of the 20th century. It shares boundaries with literature, psychiatry, and academic psychology, yet it is the only discipline that strives to understand the inner world of human subjective experience. Terms that arose out of Freud's seminal work on the theory of human unconscious motivation, such as neurotic, ego, libido, paranoid, and psyche, are now so commonplace that we use them in everyday conversation. This is the first complete history of psychoanalysis, from its origins in 19th-century medical science to the present day -- that is, from the couch to Prozac. Whether you are pro- or anti-Freud, you will find this a learned, revelatory, original -- and humane -- book.
