STRUCTURAL ANALYSIS OF COMPOSITE WIND TURBINE BLADES

Springer Jul 2013, 2013. Buch. Book Condition: Neu. 235x155x19 mm. Neuware - This book concerns the development of novel finite elements for the structural analysis of composite beams and blades. The introduction of material damping is also an important aspect of composite structures and it is presented here in terms of their static and dynamic behavior. The book thoroughly presents a new shear beam finite element, which entails new blade section mechanics, capable of predicting structural blade coupling due to...

Reviews

This pdf is really gripping and interesting. We have go through and that i am confident that i will planning to read yet again once again later on. You wont feel monotony at at any time of your time (that's what catalogs are for relating to in the event you question me).

-- **Miss Madisyn Gulowski**

An extremely great publication with perfect and lucid answers. It really is writer in straightforward phrases and never hard to understand. You can expect to like how the author write this publication.
